

Register Community Day Philippines 2023

Come celebrate the 10 year anniversary

What are AWS Community Days?

AWS Community Day events are community-led conferences where event logistics and content is planned, sourced, and delivered by community leaders. They feature technical discussions, workshops, and hands-on labs led by expert AWS users and industry leaders from around the world. Community Day events deliver a peer-to-peer learning experience, providing developers with a venue for them to acquire AWS knowledge in their preferred way: from one another. In many ways they are events put on "by the community, for the community".
